Dear Friends and Neighbors,

Welcome to the 2024 North Dakota State Fair!

One of North Dakota's biggest statewide events, the State Fair showcases agriculture at its finest. For more than half a century, FFA and 4-H members have been showcasing their hard work, dedication and talents at the fair; I know this year will be no different. Many have spent long hours nurturing and growing crops and livestock, designing and building outstanding exhibits, creating beautiful artwork, writing thoughtful essays and much more. This is a place to showcase the youth of our state and their accomplishments, to recognize them for their contributions and encourage them to continue their involvement in agriculture.

You can also see innovations in the world of agriculture technology and equipment. Investigate everything from state-of-the-art computer software to the latest and largest combines, tractors and other implements. Seeing this equipment gives you a first-hand look at some of the things it takes to farm and ranch in today's world.

Kids and adults alike will enjoy getting a close-up view of different crops at the crop plot, watching the racing pigs, attending a rodeo or watching bull riding.

Mark your calendar for Monday, July 22 from 11 am – 1 pm to enjoy a \$1 Pride of Dakota lunch. It's all under the Festival Tent in the State Fair Park.

State Fair Manager Craig Rudland and his staff work hard to make sure your experience at the 59th annual North Dakota State Fair, July 17-27, is educational, entertaining and most importantly memorable. Come out and enjoy the fair, it will be worth it!

Sincerely,

Doug Goehring

The State Fair will follow the State Board of Animal Health's requirements should they change from the time of print to the beginning of the fair.

If properly treated, the livestock entry may be approved for readmission if the state veterinarian staff sees the treatment as satisfactory and is given a written receipt from the offsite veterinarian. The written receipt must include the veterinarian's name, contact information, treatment plan, and signature.

IAFE NATIONAL CODE OF SHOW RING ETHICS

Exhibitors of animals at livestock shows shall at all times deport themselves with honesty and good sportsmanship. Their conduct in this competitive environment shall always reflect the highest standards of honor and dignity to promote the advancement of agricultural education. This code applies to junior as well as open class exhibitors who compete in structured classes of competition. This code applies to all livestock offered in any event at a livestock show. In addition to the "IAFE Code of Show Ring Ethics," fairs and livestock shows may have rules and regulations which they impose on the local, county, state, provincial and national levels. All youth leaders working with junior exhibitors are under an affirmative responsibility to do more than avoid improper conduct or questionable acts. Their moral values must be so certain and positive that those younger and more pliable will be influenced by their fine example. Owners, exhibitors, fitters, trainers and absolutely responsible persons who violate the code of ethics will forfeit premiums, awards and auction proceeds and shall be prohibited from future exhibition in accordance with the rules adopted by the respective fairs and livestock shows. Exhibitors who violate this code of ethics demean the integrity of all livestock exhibitors and should be prohibited from competition at all livestock shows in the United States and Canada. The following is a list of guidelines for all exhibitors and all livestock in competitive events:

1. All exhibitors must present, upon request of fair and livestock show officials, proof of ownership, length of ownership, and age of all animals entered. Misrepresentation of ownership, age, or any facts relating thereto is prohibited.
2. Owners, exhibitors, fitters, trainers, or absolutely responsible persons shall provide animal health certificates from licensed veterinarians upon request by fair or livestock show officials.
3. Junior exhibitors are expected to care for and groom their animals while at fairs or livestock shows.
4. Animals shall be presented to show events where they will enter the food chain free of violative drug residues. The act of entering an animal in a livestock show is the giving of, consent by the owner, exhibitor, fitter, trainer and/or absolutely responsible person for show management to obtain any specimens of urine, saliva, blood, or other substances from the animal to be used in testing. Animals not entered in an event which culminates with the animal entering the food chain shall not be administered drugs other than in accordance with applicable federal, state and provincial statutes, regulations and rules. Livestock shall not be exhibited if the drugs administered in accordance with federal, state and provincial statutes, regulations and rules affect the animal's performance or appearance at the event. If the laboratory report on the analysis of saliva, urine, blood, or other sample taken from livestock indicates the presence of forbidden drugs or medication, this shall be prima facie evidence such substance has been administered to the animal either internally or externally. It is presumed that the sample of urine, saliva, blood, or other substance tested by the laboratory, to which it is sent, is the one taken from the animal in question, its integrity is preserved and all procedures of said collection and preservation, transfer to the laboratory and analysis of the sample are correct and accurate and the report received from the laboratory pertains to the sample taken from the animal in question and correctly reflects the condition of the animal at the time the sample was taken, with the burden on the owner, exhibitor, fitter, trainer, or absolutely responsible person to prove otherwise. At any time after an animal arrives on the fair or livestock show premises, all treatments involving the use of drugs and/or medications for the sole purpose of protecting the health of the animal shall be administered by a licensed veterinarian.
5. Any surgical procedure or injection of any foreign substance or drug or the external application of any substance (irritant, counter-irritant, or similar substance) which could affect the animal's performance or alter its natural contour, confirmation, or appearance, except external applications of substances to the hoofs or horns of animals which affect appearance only and except for surgical procedures performed by a duly licensed veterinarian for the sole purpose of protecting the health of the animal, is prohibited.
6. The use of showing and/or handling practices or devices such as striking animals to cause swelling, using electrical contrivance, or other similar practices are not acceptable and are prohibited.
7. Direct criticism or interference with the judge, fair or livestock show management, other exhibitors, breed representatives, or show officials before, during, or after the competitive event is prohibited. In the furtherance of their official duty, all judges, fair and livestock show management, or other show officials shall be treated with courtesy, cooperation and respect and no person shall direct abusive or threatening conduct toward them.
8. No owner, exhibitor, fitter, trainer, or absolutely responsible person shall conspire with another person or persons to intentionally violate this code of ethics or knowingly contribute or cooperate with another person or persons either by affirmative action or inaction to violate this code of ethics. Violation of this rule shall subject such individual to disciplinary action.
9. The application of this code of ethics provides for absolute responsibility for an animal's condition by an owner, exhibitor, fitter, trainer, or participant whether or not he or she was actually instrumental in or had actual knowledge of the treatment of the animal in contravention of this code of ethics.
10. The act of entering an animal is the giving of consent by the owner, exhibitor, fitter, trainer, or absolutely responsible person to have disciplinary action taken by the fair or livestock show for violation of this Code of Show Ring Ethics and any other rules of competition of the fair or livestock show without recourse against the fair or livestock show. The act of entering an animal is the giving of consent that any proceedings or disciplinary action taken by the fair or livestock show may be published with the name of the violator or violators in any publication of the International Association of Fairs and Expositions, including Fairs and Expos and any special notices to members.
11. The act of entering of an animal in a fair or livestock show is the giving of verification by the owner, exhibitor, fitter, trainer, or absolutely responsible person that he or she has read the IAFE Code of Show Ring Ethics and understands the consequences of and penalties provided for actions prohibited by the code. It is further a consent that any action which contravenes these rules and is also in violation of federal, state, or provincial statutes, regulations, or rules may be released to appropriate law enforcement authorities with jurisdiction over such infractions.

HEALTH REGULATIONS

**These requirements were accurate as of printing time, but are subject to change should health concerns emerge prior to the Fair*

Before unloading livestock, a state veterinarian must check all cattle, sheep, swine, and goats to ensure health and well-being of all animals exhibiting at the ND State Fair. Poultry, rabbits and horses will be inspected after they are penned. Any animal with evidence of contagious, infectious disease will be dismissed from the Fairgrounds immediately. This includes animals showing signs of localized disorders such as club lamb fungus, ringworm, or other dermatophytosis (infectious skin conditions) and warts, as well as systemic disease of the respiratory or GI system. Additionally, any animal with an obvious physical defect or deformity, including, but not limited to, prolapses, open sores, eye lesions, lameness or other physical injury shall be removed from the Fairgrounds immediately. Animals exhibiting any condition affecting their health or comfort in the professional opinion of the inspecting veterinarian will not be permitted on the Fairgrounds. Animals who are recovering from localized skin disorders will be permitted if (1) there are no open sores, and (2) hair is beginning to grow back (as determined by inspecting veterinarian).

See page 6 for more information regarding the livestock arrival process.

- **Goats:** All goats that come to the Fair, with the exception of market wether goats, must have official scrapie identification tags. For goat breeds approved by USDA-APHIS-VS, a 'breed registration tattoo' will be accepted in lieu of a scrapie tag, provided the tattoo is legible and the exhibitor presents a copy of the registration papers listing the current owner. Goats will be checked by the State Fair Veterinarian prior to unloading
- **Sheep:** Sheep will be checked by the State Fair Veterinarian prior to unloading. No early releases. All sexually intact sheep must have an official scrapie tag.
- **Swine:** Swine will be checked by the State Fair Veterinarian prior to unloading. No early releases.
- **Poultry:** All birds must bear a leg or wing band and meet one of the following criteria: 1) Originate directly from an NPIP certified flock, 2) Test negative to S. pullorum within 90 days prior to exhibitions, or 3) Have been purchased from an NPIP source and be accompanied by a Poultry Exhibition Statement of Origin form (SRN 60329). NO. 2 - LIVESTOCK FROM OTHER STATES

- All livestock will be checked by the State Fair Veterinarian prior to unloading.
- Certificate of veterinary inspection (CVI) and an importation permit number are required on all food animals from out of state. A CVI is required for horses, but an importation permit is not unless specific disease issues arise which necessitate it.
- Out-of-state livestock must all be officially identified, regardless of age or sex, and will need a certificate of veterinary inspection and permit number from the ND State Board of Animal Health. To obtain the importation permit number, veterinarians should call 701-328-2655. For any livestock being imported from Canada please contact the North Dakota State Board of Animal Health at 701-328-2655 and the USDA - APHIS, Veterinary Services at 701-250-4210.

NO. 2 - LIVESTOCK FROM OTHER STATES - SPECIES SPECIFIC REQUIREMENTS

- **Cattle:** No early releases. All out of state cattle for exhibition, regardless of age or sex, must be identified with an official tag which is listed on the CVI prior to entry to North Dakota. A negative Brucellosis test is required for all sexually intact cattle 18 months of age or older from Texas, Idaho, or from certain counties in MT or WY. A negative tuberculosis test within 30 days prior to importation is required for all cattle from Michigan, Texas and California. Calves accompanying a negative dam do not require testing. All bulls over 24 months of age and all non-virgin bulls over 12 months of age must have three consecutive, weekly, negative Trichomoniasis fetus culture tests or one negative PCR test prior to importation unless an exhibition exemption is granted. Contact the ND State Board of Animal Health for complete information.

 - **Additional requirements for Rodeo/Event Cattle:** All cattle used for rodeo or timed events must have a negative bovine TB test within the last 12 months prior to import into ND. Bucking bulls must also have a negative brucellosis test within the last 12 months prior to importation. - **Sheep:** All sexually intact sheep must have an official scrapie tag. Rams 12 months of age and over must be negative to an approved Brucella ovis test, or the flock of origin must have a negative B. ovis status. A negative B. ovis status is non-transferable from one flock to another for those animals which are sold. Unless sheep are a QR or RR genotype at codon 171 as verified by two blood tests drawn under the supervision of an accredited veterinarian or state or federal veterinarian, the CVI must include the following statement signed by the owner of the flock of origin: “The flock of origin had not been diagnosed as a scrapie infected, source, trace, or exposed flock in the last five years”.
- **Swine:** All swine must be identified with an official ear tag. The following Porcine Epidemic Diarrhea virus (PEDv) statement is required on all CVIs and must be signed by the owner as well as the veterinarian. “The premises the swine are originating from has not had signs or a diagnosis of Transmissible Gastroenteritis (TGE) or Porcine Epidemic Diarrhea virus (PEDv) in the last 60 days.”
- **Goats:** All goats that come to the Fair, with the exception of market wether goats, must have official scrapie identification tags. RULES REGARDING SPECIE SCHEDULE & BARN:

- No early arrivals or releases. Swine may arrive on Monday, July 22 from 9:00pm - 11:00pm or Tuesday, July 23 from 7:00am - 11:00am.
- Swine exhibitors must check in with swine superintendent upon arrival for pen assignments.
- Wood chips for bedding will be available for purchase.
- Livestock trailers and livestock vehicles will be required to park off grounds. Camper vehicle can park in assigned camping lot with appropriate pass. All vehicles used to transport livestock and/or RV's must have a valid auto pass. Vehicles without passes will be towed at the owner's expense. Vehicle passes must be requested in advance of the first day of Fair, and will not be available at the gate. Livestock load/unload passes will be limited to one (1) per family and can be requested on the livestock entry form. These passes will only be used to load/unload livestock and tack during entry and release times. Tack stored off grounds can only be unloaded from 6:00AM to 10:00AM and 7:00PM to 9:00PM. For more information, please see page 8
- Due to limited space, pigs will be stalled by the number of head entered. If you have pigs that cannot be stalled together, you will have to make arrangements for those animals in the pens allotted to you. This may mean bringing your own portable panels to split pens. There will be no tack pens allowed unless room permits.
- **Fan Policy:** No fans, fan stands, or butt fans of any type will be allowed in the barn aisles.
- See Page 14 for Health Regulations
- See Page 6 for General Rules & Information

RULES REGARDING ENTRIES:

- **Entries will close July 6 at 5pm.** Our online entry system is the preferred method and can be found on ndstatefair.com. For a step-by-step, please see page 12.
- Only entries received by the July 6 deadline will be listed on the show program and receive their passes in the mail, if any were requested. Any entry after the deadline that requested passes, the passes can be picked up at the NDSF office **prior** to fair or at Gate F during the fair.
- Entries may be made after the deadline by paying triple the normal fees. **Entries will not be received after 5pm on Friday, July 12.**
- If five paid entries in one breed have not been received by check-in deadline, livestock will be required to show in the other breeds division.
- Specify special stalling needs on entry forms. Late entries have no stall guarantees.
- When filling out entry form, be sure to list breed. All breeding animals must have association registration papers. Animals must be exhibited in the officially recorded owner's name.
- Breeding swine classes will have a maximum class size of 15 head. If a class exceeds 15 head, the registered classes will be split by date of birth and the grade classes will be split by weight.
- Junior yearling sows shall have farrowed and suckled a litter or show ample evidence of carrying a litter at the time of exhibition.
- All hogs must have large, legible ear tags (not just a metal clip), large enough to read at a distance.

DECLARATION OF WEIGHT PROCEDURES:

- The Swine Show will operate under a Declare Your Weight process for market animals as well as crossbred breeding gilts. This means each exhibitor will be responsible for weighing his or her own hogs during the weigh-in period on Tuesday, July 23. **The weigh-in period will run from noon until 4pm.** Weight cards will be available Tuesday morning for exhibitors to pick up to record their pig's weight and other required information. The cards will be in triplicate form. The first copy must be submitted to 4-H or FFA, the second copy will be turned in to the open class superintendent, and the third copy will be for the exhibitor's records. Required information will be the exhibitor's name; exhibitor's number; pig tag number; whether the animal is a barrow or gilt and market or breeding gilt; and pig weight on the 4-H/ FFA card circle indicating in which show the animal will be shown. Use the other card circle if it will be shown in the open and junior show. All weight cards must be submitted to the appropriate superintendents **by 4:30pm on Tuesday, July 23.** If weight cards are not turned in by the 4:30pm deadline, those animals will not be eligible to show in their respective shows.
- Along with the Declare Your Weight, a weigh-back is required for each of the shows. The top three animals in each class will be weighed during their class to determine if they are eligible to return for the overall drive. If a pig does not weigh within the allotted plus/minus 15-pound weight allowance, it will not receive a placing for that class and will not be eligible for champion/reserve market hog competition. The next pig in the lineup will move up in class and be called to the scale for a weight check.
- Following the weigh-in time period and declaration of weight, the management will determine the splitting of the classes according to the weight distribution and number of animals, with no more than 15 in a group. Class weight breakdowns will be posted.

The Herdsman Award

Awarded to an exhibitor of swine, is based on neatness and general appearance of the exhibit, as well as the exhibitor's cooperation and courtesy throughout the exhibition period.
