Dear Friends and Neighbors,

Welcome to the 2026 North Dakota State Fair!

One of North Dakota's biggest statewide events, the State Fair showcases agriculture at its finest. For more than half a century, FFA and 4-H members have been showing and exhibiting their hard work, dedication and talents at the fair; I know this year will be no different. Many have spent long hours nurturing and growing crops and livestock, designing and building outstanding exhibits, creating beautiful artwork, writing thoughtful essays and much more. This is a place to showcase the youth of our state and their accomplishments, to recognize them for their contributions and encourage them to continue their involvement in agriculture.

You can also see innovations in the world of agriculture technology and equipment. Investigate everything from state-of-the-art software to the latest and largest combines, tractors and other implements. Seeing this equipment gives you a first-hand look at some of the things it takes to farm and ranch in today's world.

Kids and adults alike will enjoy getting a close-up view of different crops at the crop plot, watching the racing pigs, attending a rodeo or watching bull riding.

Be sure to visit our new Pride of Dakota Marketplace in the State Fair Center, scheduled from 10 a.m. to 8 p.m. daily during the fair. It will be filled with Pride of Dakota vendors, Ag in the Classroom exhibits and much more! Also mark your calendar for Monday, July 20 from 11 am – 1 pm to enjoy a \$1 Pride of Dakota lunch under the Festival Tent in the State Fair Park.

State Fair Manager Craig Rudland and his staff work hard to make sure your experience at the 61st annual North Dakota State Fair, July 17-25, is educational, entertaining and most importantly memorable. Come out and enjoy the fair, it will be worth it!

Sincerely,

Doug Goehring

IAFE NATIONAL CODE OF SHOW RING ETHICS

Exhibitors of animals at livestock shows shall at all times deport themselves with honesty and good sportsmanship. Their conduct in this competitive environment shall always reflect the highest standards of honor and dignity to promote the advancement of agricultural education. This code applies to junior as well as open class exhibitors who compete in structured classes of competition. This code applies to all livestock offered in any event at a livestock show. In addition to the "IAFE Code of Show Ring Ethics," fairs and livestock shows may have rules and regulations which they impose on the local, county, state, provincial and national levels. All youth leaders working with junior exhibitors are under an affirmative responsibility to do more than avoid improper conduct or questionable acts. Their moral values must be so certain and positive that those younger and more pliable will be influenced by their fine example. Owners, exhibitors, fitters, trainers and absolutely responsible persons who violate the code of ethics will forfeit premiums, awards and auction proceeds and shall be prohibited from future exhibition in accordance with the rules adopted by the respective fairs and livestock shows. Exhibitors who violate this code of ethics demean the integrity of all livestock exhibitors and should be prohibited from competition at all livestock shows in the United States and Canada. The following is a list of guidelines for all exhibitors and all livestock in competitive events:

1. All exhibitors must present, upon request of fair and livestock show officials, proof of ownership, length of ownership, and age of all animals entered. Misrepresentation of ownership, age, or any facts relating thereto is prohibited.
2. Owners, exhibitors, fitters, trainers, or absolutely responsible persons shall provide animal health certificates from licensed veterinarians upon request by fair or livestock show officials.
3. Junior exhibitors are expected to care for and groom their animals while at fairs or livestock shows.
4. Animals shall be presented to show events where they will enter the food chain free of violative drug residues. The act of entering an animal in a livestock show is the giving of, consent by the owner, exhibitor, fitter, trainer and/or absolutely responsible person for show management to obtain any specimens of urine, saliva, blood, or other substances from the animal to be used in testing. Animals not entered in an event which culminates with the animal entering the food chain shall not be administered drugs other than in accordance with applicable federal, state and provincial statutes, regulations and rules. Livestock shall not be exhibited if the drugs administered in accordance with federal, state and provincial statutes, regulations and rules affect the animal's performance or appearance at the event. If the laboratory report on the analysis of saliva, urine, blood, or other sample taken from livestock indicates the presence of forbidden drugs or medication, this shall be prima facie evidence such substance has been administered to the animal either internally or externally. It is presumed that the sample of urine, saliva, blood, or other substance tested by the laboratory, to which it is sent, is the one taken from the animal in question, its integrity is preserved and all procedures of said collection and preservation, transfer to the laboratory and analysis of the sample are correct and accurate and the report received from the laboratory pertains to the sample taken from the animal in question and correctly reflects the condition of the animal at the time the sample was taken, with the burden on the owner, exhibitor, fitter, trainer, or absolutely responsible person to prove otherwise. At any time after an animal arrives on the fair or livestock show premises, all treatments involving the use of drugs and/or medications for the sole purpose of protecting the health of the animal shall be administered by a licensed veterinarian.
5. Any surgical procedure or injection of any foreign substance or drug or the external application of any substance (irritant, counter-irritant, or similar substance) which could affect the animal's performance or alter its natural contour, confirmation, or appearance, except external applications of substances to the hoofs or horns of animals which affect appearance only and except for surgical procedures performed by a duly licensed veterinarian for the sole purpose of protecting the health of the animal, is prohibited.
6. The use of showing and/or handling practices or devices such as striking animals to cause swelling, using electrical contrivance, or other similar practices are not acceptable and are prohibited.
7. Direct criticism or interference with the judge, fair or livestock show management, other exhibitors, breed representatives, or show officials before, during, or after the competitive event is prohibited. In the furtherance of their official duty, all judges, fair and livestock show management, or other show officials shall be treated with courtesy, cooperation and respect and no person shall direct abusive or threatening conduct toward them.
8. No owner, exhibitor, fitter, trainer, or absolutely responsible person shall conspire with another person or persons to intentionally violate this code of ethics or knowingly contribute or cooperate with another person or persons either by affirmative action or inaction to violate this code of ethics. Violation of this rule shall subject such individual to disciplinary action.
9. The application of this code of ethics provides for absolute responsibility for an animal's condition by an owner, exhibitor, fitter, trainer, or participant whether or not he or she was actually instrumental in or had actual knowledge of the treatment of the animal in contravention of this code of ethics.
10. The act of entering an animal is the giving of consent by the owner, exhibitor, fitter, trainer, or absolutely responsible person to have disciplinary action taken by the fair or livestock show for violation of this Code of Show Ring Ethics and any other rules of competition of the fair or livestock show without recourse against the fair or livestock show. The act of entering an animal is the giving of consent that any proceedings or disciplinary action taken by the fair or livestock show may be published with the name of the violator or violators in any publication of the International Association of Fairs and Expositions, including Fairs and Expos and any special notices to members.
11. The act of entering of an animal in a fair or livestock show is the giving of verification by the owner, exhibitor, fitter, trainer, or absolutely responsible person that he or she has read the IAFE Code of Show Ring Ethics and understands the consequences of and penalties provided for actions prohibited by the code. It is further a consent that any action which contravenes these rules and is also in violation of federal, state, or provincial statutes, regulations, or rules may be released to appropriate law enforcement authorities with jurisdiction over such infractions.

HEALTH REGULATIONS

**These requirements were accurate as of printing time, but are subject to change should health concerns emerge prior to the Fair*

Before unloading livestock, a state veterinarian must check all cattle, sheep, swine, and goats to ensure health and well-being of all animals exhibiting at the ND State Fair. Poultry, rabbits and horses will be inspected after they are penned. Any animal with evidence of contagious, infectious disease will be dismissed from the Fairgrounds immediately. This includes animals showing signs of localized disorders such as club lamb fungus, ringworm, or other dermatophytosis (infectious skin conditions) and warts, as well as systemic disease of the respiratory or GI system. Additionally, any animal with an obvious physical defect or deformity, including, but not limited to, prolapses, open sores, eye lesions, lameness or other physical injury shall be removed from the Fairgrounds immediately. Animals exhibiting any condition affecting their health or comfort in the professional opinion of the inspecting veterinarian will not be permitted on the Fairgrounds. Animals who are recovering from localized skin disorders will be permitted if

(1) there are no open sores, and (2) hair is beginning to grow back (as determined by inspecting veterinarian).

See page 6 for more information regarding the livestock arrival process.

- Out-of-state livestock must all be officially identified, regardless of age or sex, and will need a certificate of veterinary inspection and permit number from the ND State Board of Animal Health. To obtain the importation permit number, veterinarians should call 701-328-2655. For any livestock being imported from Canada please contact the North Dakota State Board of Animal Health at 701-328-2655 and the USDA - APHIS, Veterinary Services at 701-250-4210.

2026 Need to Know

Trailer Parking-

Livestock trailer parking has been relocated to a new designated area to the west of Gate F along 4th Ave. The parking area is now situated within a fenced-off enclosure to provide added security, organization, and easier access for exhibitors. Clear signage will be posted to help direct traffic to the new location. Please plan accordingly and follow all posted instructions when arriving with livestock trailers.

4-H and FFA Combined Shows-

With the merger of the 4-H and FFA livestock shows, please refer to the Livestock Schedule for check-in, weigh-in, and new show times for each species.

RoughRider Arena Name Change-

The former RoughRider Arena has officially been renamed Gooseneck Arena following a partnership with Gooseneck Implement.

This reflects the company's ongoing investment in the local community and its strong ties to the region's agricultural heritage.

Fitting Area's-

Fitting areas will be painted by 10 x 10 spots. Please try to keep in these lines as much as possible to help with fire code. These spaces will be first come, first serve. Goat fitting area, located by Daryl's Racing Pigs, will now span over that whole area. This will not be able to be accessed until all horse wagons are removed from the area Monday afternoon. There will be 38 10 x 10 fitting spots located in that area.

RULES REGARDING SPECIE SCHEDULE & BARN:

- No early arrivals or releases. Swine may arrive on Monday, July 20 from 9:00pm - 11:00pm or Tuesday, July 21 from 7:00am - 11:00am.
- Swine exhibitors must check in with swine superintendent upon arrival for pen assignments.
- Wood chips for bedding will be available for purchase.
- Livestock trailers and livestock vehicles will be required to park off grounds. Camper vehicle can park in assigned camping lot with appropriate pass. All vehicles used to transport livestock and/or RV's must have a valid auto pass. Vehicles without passes will be towed at the owner's expense. Vehicle passes must be requested in advance of the first day of Fair, and will not be available at the gate. Livestock load/unload passes will be limited to one (1) per family and can be requested on the livestock entry form. These passes will only be used to load/unload livestock and tack during entry and release times. Tack stored off grounds can only be unloaded from 6:00AM to 10:00AM and 7:00PM to 9:00PM. For more information, please see page 8
- Due to limited space, pigs will be stalled by the number of head entered. If you have pigs that cannot be stalled together, you will have to make arrangements for those animals in the pens allotted to you. This may mean bringing your own portable panels to split pens. There will be no tack pens allowed unless room permits.
- **Fan Policy:** No fans, fan stands, or butt fans of any type will be allowed in the barn aisles.
- See Page 14 for Health Regulations
- See Page 6 for General Rules & Information

RULES REGARDING ENTRIES:

- **Entries will close July 6 at 5pm.** Our online entry system can be found on ndstatefair.com. For a step-by-step, please see page 12.
- Only entries received by the July 6 deadline will be listed on the show program and receive their passes in the mail, if any were requested. Any entry after the deadline that requested passes, the passes can be picked up at the NDSF office **prior** to fair or at Gate F during the fair.
- Entries may be made after the deadline by paying triple the normal fees. **Entries will not be received after 5pm on Friday, July 10.**
- If five paid entries in one breed have not been received by check-in deadline, livestock will be required to show in the other breeds division.
- Specify special stalling needs on entry forms. Late entries have no stall guarantees.
- When filling out entry form, be sure to list breed. All breeding animals must have association registration papers. Animals must be exhibited in the officially recorded owner's name.
- Breeding swine classes will have a maximum class size of 15 head. If a class exceeds 15 head, the registered classes will be split by date of birth and the grade classes will be split by weight.
- Junior yearling sows shall have farrowed and suckled a litter or show ample evidence of carrying a litter at the time of exhibition.
- All hogs must have a USDA 840 **official** ear tag (not just a metal clip), written tags will not be permitted.

DECLARATION OF WEIGHT PROCEDURES:

- The Swine Show will operate under a Declare Your Weight process for market animals (Market Gilts, Purebred Barrows, Crossbred Barrows) as well as Crossbred Breeding Gilts. This means each exhibitor will be responsible for weighing his or her own hogs during the weigh-in period on Tuesday, July 21. The weigh-in period will run from 10am until 3pm. Weight cards will be available Tuesday morning for exhibitors to pick up to record their pig's weight and other required information. The cards will be in duplicate form. **In 2026, you will turn in a separate weigh card for each show that pig is entered in. Since the shows are spread out throughout the week this allows exhibitors to turn in weights for pigs showing at the end of the week that should reflect their pigs weight gain while at the fair.** The top copy of each card will be turned into your respective superintendent while the duplicate copy should be retained by the exhibitor for their records. Required information will be the exhibitor's name; 840 tag number and ear notch number; whether the animal is a purebred or crossbred barrow breeding or market gilt; breed and pig weight. All weight cards must be submitted to the appropriate superintendents by 4pm on Tuesday, July 21. If weight cards are not turned in by the 4pm deadline, those animals will not be eligible to show in their respective shows.
- Along with the Declare Your Weight, a weigh-back is required for each of the shows. It is the judges discretion on how many hogs will be weighed after the minimums have been reach for each show to determine if they are eligible to return for the overall drive. If a pig does not weigh within the allotted plus/minus 15-pound weight allowance, it will not receive a placing for that class and will not be eligible for champion/reserve market hog competition. The next pig in the lineup will move up in class and be called to the scale for a weight check.
- Following the weigh-in time period and declaration of weight, the show management will determine the splitting of the classes according to the weight distribution and number of animals, with no more than 15 in a group. Class weight breakdowns will be posted.

JUDGING CRITERIA:

- At judging ribbons will be attached, except the special information governing the second show period for vegetables and garden produce. Instructions on size of exhibits are given under each division. Follow these closely; exhibits of less than the required amount will not be considered for premiums. Treating entries with oil chemicals or processing in any way injurious to the exhibit is not permitted. The judges are instructed not to award premiums to entries unfit for the show or those incorrectly named.
 - This a Produce Show:** only high quality material should be exhibited. The show management reserves the right to reject any exhibits which are determined undesirable. 4-H and FFA Pure Seed members should make duplicate exhibits if they wish to enter open class.

 - The Fair reserves the right to color any sample. This will not injure the growing qualities of the sample, but is a precedent followed by all leading Fairs in the country. The show management will exercise reasonable precaution with all items but will not be responsible for loss of or mixture of samples. All exhibits must remain in place for each show as specified. Ribbons must remain on the exhibits during the entire show. All exhibits will become the property of the Fair unless claimed by 9 p.m. Saturday, July 25.

DIVISION A - GRAIN & FORAGE BUNDLES

To make small grain, grasses, and millet sheaves entered for seed production: Select uniform high quality plants. Spread the grain plants out in a sheltered area and allow to dry for one day. Strip off all leaves, taking care not to break the straw in handling. Form a core of 30 to 40 stems, then place the other stems around the core to form a sheaf 7-9 inches in circumference (around) at a point halfway between the heads and the butt. Tie the bundle firmly in three places, using cord which will not cut the straw. Form the crown (heads) in a rounded shape by moving the core up and down. Cut off the butt squarely and hang the sheaf with heads down until exhibited.

To make alfalfa and sweet clover sheaves entered for seed production: Use same guidelines as for forage production; select stalks showing maximum seed development.

To make a sunflower sheaf: The entire plant should be shown with the leaves removed.

In making up show bundles, select those individual stems that have retained the most and best leaves with their color. Make bundles from 3 to 5 inches in diameter (across) or 9.4 to 11 inches in circumference (around) tied securely once at a point 1/3 from the base, and tied a second time loosely once about halfway up to prevent spreading. Sheaves measuring under 9.4 inches in circumference will be disqualified. Corn, Sudan, Sorghum and Millet sheaves shall be tied three times at uniform spacing.
